THE HOME DEFENDER

laserammo.com | (516) 858-1262 | support@laserammo.com

TAKE RESPONSIBILITY FOR YOUR OWN SAFETY BY BECOMING YOUR HOME DEFENDER!

We are taking pride in being able to make a difference in a person's life. We are excited about every call we get from our loyal customers, sharing with us how they train with their family in order to become safer and more responsible gun owners.

This year we started our new Podcast, **Making Shooters Better**, by none other than our very own Terry Vaughan, a former

Royal Marines Commando, TOP SHOT season 4 competitor, and Laser Ammo's own Strategic Accounts Manager. **Making Shooters Better** is where stories meet skills. Each episode dives into real shooter's journeys—how they train, think, and perform under pressure. Whether you're a new shooter, instructor, or industry pro, you'll walk away with actionable takeaways to sharpen your training and mindset. We focus on Real stories. Real strategies. Real skills.

A few words about us, for those who don't know us:

Established in 2008 in Israel by current and former Israeli and US law enforcement and military professionals, we are the first and original laser training cartridge (infringers beware!) and have grown to become the worldwide leader in laser-based firearms and force-on-force training.

With our Research & Development based in Israel and sales offices in the USA (NY and TX) and Europe, we offer our innovative training solutions to military units, federal and regional law enforcement agencies, firearms instructors, security personnel, and tens of thousands of responsible firearm enthusiasts worldwide, just like you!

OUR PHILOSOPHY

Our product philosophy is simple: provide affordable, high-quality products that allow any shooter to train anytime, anywhere. We are excited to have you with us and look forward to supporting your journey to becoming a more responsible, confident, and skilled home defender.

MAKING SHOOTERS BETTER

SMOKELESS RANGE®

MAKING REAL PEOPLE MUCH BETTER!

NEW
FOR
2026

The Smokeless Range® is dynamic and an always evolving software. We are working hard to keep the simulator at the forefront of the simulator industry. We are consistently releasing new add-ons and providing new updates, which we keep free to our users. We have no subscription fees and pride ourselves on providing a cost-effective solution in the simulator market. We listen to our customers' feedback, and make sure we provide the best training experience.

New Releases for 2026:

- **Hogan's Alley** – a law enforcement focus software that will allow our heroes in blue to train on room entry and unlimited active shooter scenarios that they can build according to their training needs.
- **Terminal Z** – is our first title debut in 2026, in our new Smokeless Range™ Entertainment Line, built on UNREAL for amazing visuals.

Like always, all of our add ons include a free 2-week trial for those who are looking to purchase it.

SCAN ME

WHAT YOU NEED FOR SMOKELESS RANGE®

LIGHTING

Room with controlled lighting and no sunlight

LAPTOP/DESKTOP

Windows 7, 8.1, or 10 PC that meets minimum specifications

VIDEO PROJECTOR

Capable of 1280x720 resolution and 2000 to 3500 Lumens (Depending on Screen Size)

PROJECTION SCREEN

White projection screen (highly recommended)
Flat white wall (non-glossy)
Flat screen TV (with filter)

LASER TRAINING DEVICE

Red/IR laser for dry fire with SureStrike® & ATLP® or IR Laser for Recoil Enabled Firearms

SMOKELESS RANGE® PACKAGES

CHOOSE THE RIGHT SOFTWARE FOR YOUR TRAINING AND SAVE!

(*) all packages include a high speed camera or short throw camera and mini tripod.

PLATINUM PACKAGE

SKU: PSCP001-2025 / PSCP001-ST-2025

This is the ultimate simulator package, that includes all 14 of our titles (excluding Lane Trainer) . This package needs to be used on a higher end gaming computer.

DIAMOND PACK:

SKU: DSCP002-2024 / DSCP002-ST-2024

This package includes 12 titles excluding the ones that need a gaming computer. To allow users that own a non-gaming laptop to be able to enjoy all of our training titles.

COMPETITION SHOOTER PACKAGE:

SKU: TCC001-2024 / TCC001-ST-2024

Every competition shooter's dream! IPSC, IDPA, Steel challenge and 3 gun. Build your own course or mimic any stage. Including the movement tracker that will force you to run between the stages.

FIREARMS TRAINER PACKAGE:

SKU: FTSC / FTSC-ST

Everything a firearms instructor needs. From basic target practice to use of force video scenarios. This package includes: The Smokeless Range™, Open Range™, and Video Scenario trainer.

SMOKELESS RANGE® JUDGMENTAL & MARKSMANSHIP SIMULATOR:

SKU: SR001 / SR001-ST

The best-known simulator on earth, includes 10 training drills, from target shooting to can toss and dueling tree. Guaranteed to make any shooter better! Low price, easy to use, accurate, and robust. With the ability to upgrade with all of our titles anytime.

EXPAND YOUR SMOKELESS RANGE® TRAINING WITH GREAT ADD ONS

FOCUSING ON YOUR TRAINING NEEDS

COMPETITIVE SHOOTER PRO

SKU: CSP001

Build your own competition stage with a free editor that includes many new targets (like Texas Star, Polish Plate Rack and more). Share your stages with friends or with the Range Master who can build the next local competition according to your own creation.

OPEN RANGE 2.0

SKU: OR001

Create & design your own training courses with endless possibilities. Modify any of our pre-made courses or create your own using custom targets. Share your custom courses with friends and others.

M-RANGE 2.0

SKU: MR001

M Range will allow the trainer to build qualification courses with turning targets in no time at all. The M Range supports up to 4 shooters at once. A media manager gives the ability for 2 targets per lane.

IPSC CHALLENGE

SKU: CSIP002

Train for your next IPSC competition with the next generation of high end graphics. Includes 10 different courses, leaderboard and more.

STEEL CHALLENGE

SKU: CSSC001

Steel Challenge brings this ever popular competition into your own home, allowing you to train for your upcoming match. Run through a variety of courses and train on the same targets you'll encounter in competition.

TACTICAL TARGETS

SKU: TT001

With 10 courses of fire, Tactical Targets presents a series of randomized Shoot / No-Shoot targets to ensure training never gets old. Shooter can set the number of shots to knock down the target.

WESTERN SHOOTER

SKU: WS001

Western Shooter brings you into the wild west, testing your dueling skills, target identification, speed, and much more in a variety of western themed training scenarios.

GAME RANGE ALPHA

SKU: GRA001

Bring a more recreational feel into your training while still working on the essentials. Countless hours of fun with the whole family training on the 10 included games.

FAST DRAW

SKU: FD001

Train for your next fast draw competition. This add on allows up to two shooters to compete according to the regulations of fast draw competition.

WILD BOAR HUNT

SKU: WBH001

Experience the thrill and challenge of European wild boar hunting, a sport that requires skill, patience, and accuracy. A realistic and immersive software that will appeal to both seasoned hunters and enthusiasts.

VST PRO 2.0

SKU: VST-P | VST-P-CS

Favorite amongst firearms trainers. Includes wide array of scenarios and an editor that allows you to create your own videos to practice situational awareness. An optional Control Station add-on allows trainers to easily control each scenario and its outcome.

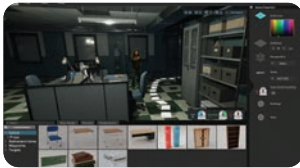

NEW FOR 2026

HOGAN'S ALLEY

SKU: HA002

Create, customize and execute realistic active training. Hogan's Alley allows the shooter to build bespoke environments that match your specific training criteria using a robust built in room editor and extensive library of paper targets and avatars. The Hogan's Alley includes: Custom scenario builder using intuitive room editor and character library to replicate real-world challenges. WYSIWYG Path tool to design realistic tactical movements such as pieing corners and clearing rooms and enhanced after action review.

TERMINAL Z

SKU: TZ001

The Terminal Z is our first title in our new Pro Line series, the next generation of Smokeless Range™ gameplay. Built entirely on the Unreal Engine, this title delivers unmatched visual fidelity and heart -pounding immersion. Plunge into a chaotic urban nightmare where the only objective is to fight through the relentless undead and escape the city alive!

AVAILABLE UPGRADE TO A SHORT THROW CAMERA

Using the simulator in a small space? Going between different locations? Attending trade shows? For rooms below 10'x20' we recommend using the short throw camera (to be paired with a short throw projector).

INTERACTIVE MULTI-TARGET TRAINING SYSTEM

REACTIVE TARGET ARENA - FOR HOME DEFENSE AND JUDGMENTAL TRAINING

The Interactive Multi-Target Training System (i-MTTS) enables wireless communication between targets, allowing the shooter to use a wide array of training modes including: standalone shooting, steel plate shooting, tactical training/chase the ball, shoot/no shoot, double speed shoot/no shoot, and double tap.

The i-MTTS do not require the use of a computer or app, and simply runs on AAA batteries (included). Each base unit also comes with 4 assorted targets, varying in both shape and size. These targets are designed to be used exclusively with any Laser Ammo lasers (red or IR).

The System Controller (offered as a standalone or within a combo) allows the shooter to switch between the different training programs, adjust the split time, total time, # of hits required on target, restart, delay time for the "start signal", set training program length, set target sound, and light options, extend target range, define sub-groups and so much more...

[*] i-MTTS targets will work with SureStrike™ Laser cartridges and Cool Fire lasers only.

SCAN ME

EACH TARGET INCLUDES:

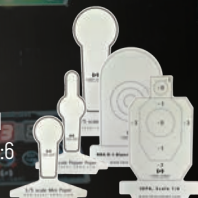

- Interactive target sensor
- AAA Batteries
- 4 target cards (3"-5") for each sensor.
- Six operational modes
- Buzzer (audio) and light feedback.

AVAILABLE PACKAGES:

SKU: i-MTTS-C	System controller
SKU: i-MTTS-1	1 Pack i-MTTS
SKU: i-MTTS-3	3 Pack i-MTTS
SKU: i-MTTS-5	5 Pack i-MTTS
SKU: i-MTTS 3-1 Combo	3 Pack i-MTTS with a controller
SKU: i-MTTS 5-1 Combo	5 Pack i-MTTS with a controller.

i-MTTS ACCESSORIES: COMPETITION SHOOTER REFLECTIVE TARGETS

Add different Poppers, Bianchi Cup and IDPA targets cards, in a scale of 1:5 or 1:6 to spice up your iMTTS training.

LASERPET™

YOUR PERSONAL ELECTRONIC TARGETS FOR SPEED AND MARKSMANSHIP DRILLS

The LaserPET II™ is a standalone laser activated reactive target that will dramatically enhance your shooting skills with immediate audio and visual feedback with each shot.

The LaserPET II™ allows any level of shooter to practice response & draw time, accuracy, reloads and much more, with up to six interactive training programs that will keep track of hits, act as a shot timer and assist the shooter to speed up his or her follow-up shots and reload times. Perfect to use with the SureStrike™ Laser Cartridge to improve your skills and marksmanship with the shooter's own firearms. Precision shooters, long-range shooters and hunters can also practice their accuracy indoors and even in the shade outdoors.

LaserPET™ II Electronic Target **SKU: LA-PET II**

Includes: a set of five target cards for a changeable hit zone, tripod, and AAA batteries.

- Six interactive training programs
- Shot timer for up to 6 hits
- Score displays in split or elapsed time
- User defined settings for sound, delay, shot number and more
- Bright 4 digit numeric LED display
- Changeable hit zone size from 0.5" To 1.8"
- Micro USB charger (not included)
- For indoor & shaded outdoor use
- Flash and sound feedback for each shot
- Battery powered level indicator
- Powered by 2x AAA batteries (included)

THE COMPLETE TRAINING SYSTEM: TARGET AND LASER COMBO

Save money with this complete training system that includes the LaserPET™ II and 9mm or 380 laser cartridge (red or IR) for use with your carry gun.

SKU: LA-PETII-9MC | LA-PETII-9MC-IR

SKU: LA-PETII-380MC | LA-PETII-380MC-IR

(*) Compatible w/ red and IR SureStrike™ or Cool Fire Lasers only.

RECOIL ENABLED TRAINING

TAKE THE DRY OUT OF THE DRY FIRE AND TRAIN WITH REALISM AND CONFIDENCE

Take your training to a whole new level with recoil enabled training - the most realistic way to maintain and perfect your shooting skills indoors, without a live range.

Commonly used by the military and law enforcement it has become more popular among shooters due to its low cost, full blowback, and automatic reset of the firearm. The realistic look and feel of the firearm reinforce muscle memory and enhances safety skills of the shooter.

Our recoil-enabled firearms are completely safe, and the training costs a fraction of what a day at the range with live ammo training would cost.

Pair one of the Recoil Enabled firearms with the Laser Ammo I-MTTS reactive targets or Smokeless Range® and take your shooting skills to a whole new level.

GLOCK 17 (GEN 3,4, 5, AND MOS), GLOCK 19 (GEN5 AND GEN5 MOS), GLOCK 45, AND GLOCK 42

NEW FOR 2026: GLOCK 17 & 19 MOS AND GLOCK 42!

SKU: RETP-UG17-GG | RETP-UG17-IR-GG
SKU: RETP-UG17-GEN5 | RETP-UG17-GEN5IR
SKU: RETP-UG17-C02 | RETP-UG17-IR-C02
SKU: RETP-UG19-GG | RETP-UG19-IR-GG
SKU: RETP-UG19-GEN5 | RETP-UG19-GEN5IR
SKU: RETP-UG45-GG | RETP-UG45-GG-IR
SKU: RETP-UG19-MOS-C02 / RETP-UG19-MOS-C02-IR
RETP-UG42-GG / RETP-UG42-GG-IR

Licensed by Glock, functionally identical to the real firearm, with familiar ergonomics, take down, metal slide, drop free magazine, realistic blowback action, and enhanced grip texture. Includes the REAL conversion barrel with SureStrike™ laser for the ultimate in dry-fire training. Available with red or IR SureStrike™ laser and powered by green gas or CO₂.

SIG SAUER P320 (M17) AND P320 CARRY (M18)

SKU: RETP-SIG M17 | RETP-SIG M17-IR
SKU: RETP-SIG M18 | RETP-SIG M18-IR
SKU: RETP-XCARRY | RETP-XCARRY-IR

SIG SAUER P320-based M17 and M18 is the US military's newest sidearm. This pistol has the same unparalleled look and feel as the U.S. military's M17 and M18 Carry. Optics ready slide uses green gas, field strippable with similar balance and weight as the real M17, metal slide construction with full blowback action.

CZ SHADOW 2

SKU: RETP-CZS | RETP-CZS-IR

The flagship in the CZ family line of pistols. Designed by top-tier competition shooters, well balanced and made for speed and precision. Powered by a CO2 cartridge, with all the same great features of the real gun. Anodized aluminum slide with added weight for optimal recoil management resulting in more precise shots on target. Fiber optic front sight and adjustable rear sight. Delivers realistic recoil for optimal training.

2011 COMPACT DOUBLE STACK

SKU: RETP-2011MK-C | RETP-2011MK-C-IR

Bring race gun familiarity into the world of laser-based training with full recoil in your home. Based on an HX2601, specially designed to be optics ready, being compatible to RMR specification, featuring 4.3 inch configuration, built to be compact and yet aggressive. Skeletonized grip with flared magwell, trigger guard designed with finger grooves for achieving a firmer grip with the support hand, robust slide and lower frame, gives this pistol a powerful recoil when fired.

HECKLER & KOCH USP AND USP COMPACT

RETP-H&K USP / RETP-H&K USP-IR

RETP-H&K USP-C / RETP-H&K USP-C-IR

The H&K KWA USP and the USP Compact designed for CQB situations. The real steel USP compact is widely used by Germany LE Departments. H&K full trademark licensing gives you great performance and realism. Featuring full metal slide with adjustable 3-dot combat sights, an ambidextrous magazine release, and realistic construction and field stripping.

BERETTA M9

SKU: RETP-M9 / RETP-M9-IR

Based on the current M9A1 version used by the U.S. Military, provides power and performance with the NS2 Gas Blowback system. The addition of a tactical accessory rail allows for the operator to attach any weapon accessory such as a light or a laser allowing the weapon to adapt to many situations.

AR15 LM4 RIS (16" LONG BARREL)/AR15 LMD (12.5" SHORT BARREL)

SKU: AR15-RIS | AR15-RIS-IR

SKU: AR15-LMD | AR15-LMD-IR

The Recoil Enabled Training AR-15 Rifles have the look, feel and weight of a real AR-15, including realistic recoil. Steel bolt carrier and legitimate buffer spring allows for reliable feedback, in a MilSpec adjustable stock. Training rifles are designed to be modified or adjusted per the operator's needs. OEM accessories may be applied or removed as needed. Operated by green gas (not included) with the Laser Ammo FLASH adapter and your choice of an infrared (invisible) or red (visible) SureStrike™ laser cartridge.

RECOIL ENABLED SOLUTIONS FOR PISTOLS AND RIFLES

FLASH SKU: FLASHKIT | FLASHKIT- IR

Flash rifle adapter converts most airsoft rifles into a recoil enabled laser training tool that is safe to use indoors.

FIRING PIN SYSTEM FOR LASER AMMO FLASH ADAPTER

SKU: FLASH-P / FLASH -PCAP

This patented firing pin system converts the FLASH from vibration activation to air pressure activation, and thus allows full recoil training without misfires and a longer battery life.

R.E.A.L. - RECOIL ENABLED AIRSOFT LASER

G2 Barrel conversion kit with PST laser for specific airsoft models. Converts airsoft gun into powerful recoil enabled training gun for indoor training. No misfires and longer battery life with the new system. Kit includes (visible) or infrared (invisible) PST Activated Laser Cartridge.

for spec and SKU please scan

SPIDER

SKU: SPIDERKIT | SPIDERKIT-IR

The SPIDER KIT converts your airsoft or blank-conversion blowback pistols with Picatinny rails into laser-emitting, full-blowback training guns. The SPIDER adapter houses the Laser Ammo SureStrike™ vibration cartridge, available in either red or IR.

STEEL HAMMER FOR GLOCK RECOIL PISTOLS

Glock SHK

Durable steel construction provides improved reliability over the stock hammer assembly. Easy installation with no modifications necessary. Perfect for upgrading or repairing older pistols.

SURESTRIKE™ VIBRATION LASER CARTRIDGE | VIBRATION ACTION CAP

SKU: 9MVSSLC-RED | 9MVSSLC-IR SKU: 9MVC

The SureStrike™ vibration activated laser cartridge uses the recoil from your training gun to emit a laser pulse with every shot. This laser will work on Laser Ammo Gen 1 FLASH and REAL, and on the Spider. The vibration cap will convert the SureStrike™ Laser model to be activated by the vibration of a recoil gun instead of firing pin.

SURESTRIKE™ PST LASER CARTRIDGE | PST ACTION CAP

SKU: 9MPSSLC | 9MPSSLC-IR SKU: 9MPSC

The SureStrike™ PST laser cartridge is activated by the firing pin system in our new Gen2 REAL barrels (excluding our 1911) and AR Platform with Flash (excluding the FLASH kits) to emit a laser pulse with every shot. No misfires and a longer battery life over the vibration system. Similar to our DF action caps, the PST action cap will convert the SureStrike™ Laser model to be activated by the firing pin of a recoil gun. It includes a much shorter laser pulse from our regular DF caps, to fit the Smokeless Range® specifications.

A SMART RESET MAGAZINE THAT CONVERTS YOUR STRIKER-FIRED PISTOL TO DRY FIRE WITHOUT THE NEED TO RACK THE SLIDE

The **SureStrikeMAG™** is a combined development of the original **SureStrike™** laser cartridge and the **Smart Dry Fire Magazine** (by DryFireMag®, LLC), which creates a powerful tool to help any level of shooter, improve their handling skills with a striker activated pistol like Glocks or Sig P320.

The shooter can use their own carry pistol with no need to rack the slide after each shot, and practice target acquisition, stance, accuracy and more with 100% safety at the convenience of the shooter's own home.

Each trigger press of the SureStrikeMAG™, activates the SureStrike™ laser cartridge to emit an eye-safe laser pulse, a "shot" of red (or Infrared) light, which simulates the point of impact where a bullet fired from the firearm would have struck.

The SureStrikeMAG™ Advantages:

- No need to rack the slide for continuous shots.
- Powered by a rechargeable battery that will last for thousands of shots.
- Magazine battery is recharged by a USB-C cable.
- Simulates a factory Glock 5.5 – 6lb trigger weight (Optional spring kit for lighter or heavier trigger weight is available).
- Many caliber adapters available (9mm, 40SW, 357 sig)
- Can be used with any Laser Ammo reactive targets and simulators.
- Class 1 Eye safe laser
- Perfect for tactical training, marksmanship and speed drills
- Practice double taps
- Builds proper muscle memory
- Does not use pistol's firing pin
- Pays for itself in ammo savings
- Practice safely in your own home

ADVANCED TRAINING LASER PISTOL (A.T.L.P.)

BUILD THE MUSCLE MEMORY FOR CORRECT GUN HANDLING WITH THE BEST-IN-CLASS TRAINING LASER PISTOL. NOW IN BASIC AND PROFESSIONAL CONFIGURATIONS TO BETTER FIT YOUR NEEDS!

BASIC CONFIGURATIONS FOR USE WITH SMOKELESS RANGE™

SMITH & WESSON M&P

SKU: SF25-BSC / SF25-BSC-IR

GLOCK 17 GEN 5

SKU: SF30-BSC / SF30-BSC-IR

The ATLP basic is a quality non-recoiling, training pistol that helps any level of shooter to train on their firearms handling skills and safety. The ATLP is easy to use, and the features allow the user to practice their marksmanship such as trigger control, sight acquisition, magazine reloads and more. The SF25 (Designed after a full-size Smith & Wesson M&P) and the SF30 (Designed after a full-size Glock 17 Gen 5) basic model is built for accuracy and durability to work with the Smokeless Range® simulator.

THE ATLP BASIC INCLUDES:

- Eye safe, high quality laser
- Windage and elevation
- Fits most duty holsters
- Red dot plate ready
- Long battery life
- Interchangeable weighted magazine
- Simulated night sights
- The original SureStrike™ Laser cartridge connects directly to the main battery of the gun for long lasting training offered in both Red and IR options
- Will activate all Laser Ammo electronic targets and Smokeless Range® Simulators.
- Plastic carrying case

**A WHOLE NEW GENERATION OF THE BEST NON-RECOILING
TRAINING PISTOL**

PROFESSIONAL CONFIGURATION NEXT GEN NOW WITH 32BIT!

SMITH & WESSON M&P

SKU: SF25-PRO-32bit / SF25-PRO-32bit-IR

GLOCK 17 GEN 5 (ORANGE OR TWO TONE)

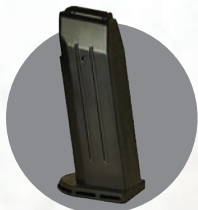

SKU: SF30-PRO-32bit / SF30-PRO-32bit-IR

SKU: SF30-PRO-32bit-2T / SF30-Pro-32bit-2T-IR

Our next generation pistol, uses the new and advanced electronics which allows for many advanced features like the shot counter, and multiple modes, with additional Tungsten weight and long battery life. By far the best and most advanced training pistol in the market today.

The advanced pistol comes with all the basic features plus:

- **Accidental discharge sensor** designed to teach proper firearms handling skills. The training gun detects an intrusion into the trigger guard setting off an alarm, warning the shooter about a potential discharge for training purposes. The device distinguishes between deliberate actions and unintentional incursions into the trigger guard.
- **Shot counter:** shooter can configure the number of shots he would like to have before the gun locks and shooter needs to change magazines to continue shooting.
- **Shot sound:** with every shot the gun will emit a shot sound.
- **Multiple Pulse modes:** choose between a variety of pulse lengths including short (for marksmanship and competitions), long pulse (for correcting your flinching, and breath control) and boresight.
- Two LED notification lights
- Optional Orange or Black color.

AVAILABLE ACCESSORIES:

Replacement Magazine: a must-have for training on magazine changes and faster reloads.

For professional configuration (Tungsten weights) **SKU: SF25-MAG-14**

For basic configuration

SKU: SF25-MAG

Replacement Battery pack: includes two (2) 3V CR123A lithium batteries. (manufacturer varies according to inventory).

FLASH BOLT

UNLIMITED TRAINING POSSIBILITIES FOR 9MM, 223/5.56, 308, 7.62 CALIBER AR PLATFORM RIFLES, WITH DIFFERENT LASER MODES FROM BORESIGHT TO DRY FIRE.

The Laser Ammo Flash Bolt is a drop in bolt for your personal AR that allows you to safely shoot a Red or Infrared laser for dry fire training. This fully adjustable laser allows you to increase proficiency with your draw, magazine reloads, sight acquisition, trigger control, transitions, as well as accuracy.

The Flash Bolt is meant to build “muscle memory” and will permit the appropriate techniques to be ingrained into your subconscious. This will allow for your actions to be duplicated automatically when you return to the range or if you are ever thrust into a shooting incident.

Move between the different laser modes for aligning your sights, dry fire with up to 6 shots a second for your PCC competition rifle, longer pulse for long distance shooting and more.

- Easy to use Windage and Elevation alignment for the most accurate training at any distance.
- Fits in most AR's chambered in .223, 5.56, .308, 7.62x39 and 9mm.
- Allowing the shooter to train on magazine changes.
- Easy and quick to install with no need to replace your trigger, sights, or optics.
- Includes different modes for optimal training: dry fire, shot tracking, boresight, and more.
- Works with all Laser Ammo targets and Smokeless Range® simulator
- Up to 6 shots a second – ideal for competition shooters
- Class 1 eye safe lasers
- Available in both Red and Infrared lasers
- Long lasting battery life (approximately 50,000 shots)

THE ORIGINAL SURESTRIKE™ LASER CARTRIDGES

TRAIN WITH YOUR OWN FIREARM ANYTIME ANYWHERE

The SureStrike™ laser training cartridges and kits allow any level shooter to practice safe marksmanship and gun handling drills with their very own firearms.

This system enables a shooter or instructor to enhance their abilities by focusing on their firearm presentation, sight alignment, sight picture, breath control, trigger squeeze and follow - through.

The patented caliber adapter system allows the 9mm SureStrike™ laser cartridge to be used in multiple calibers, eliminating the need to buy a separate cartridge for each caliber (excluding the 380 and Makarov). The patented UhrSecure™ safety system is used for visual indication that the gun is safe and aligns the laser with the barrel, making it the safest and most accurate laser in existence.

The SureStrike™ lasers are the most accurate and robust laser training aids available on the market. Built with a stainless-steel body, high quality glass lens, an action cap that controls the function of the laser, acts as a snap cap protecting your firing pin, and carries a 5,000 shot warranty (or one year) guaranteed!

All of the above makes the SureStrike™ Laser Cartridges the most versatile and safest training tool on the market.

Surestrike™ Kits Include:

- Protective carrying case
- Class 1 eye safe Red (visible) or infrared (invisible) laser cartridge
- Patented UhrSecure™ safety system (pipe, extension, and high visibility safety nut)
- Caliber adapters (Premium Plus and Ultimate kit)
- Battery pack
- Six reflective targets (with red laser only).

Surestrike™ Laser cartridges Include:

- Red (visible) or infrared (invisible) laser cartridge
- Battery pack
- 3 reflective targets (with red laser only).

INTERCHANGEABLE ACTION CAPS

CHANGE THE FUNCTIONALITY OF YOUR LASER TO YOUR OWN NEEDS

A unique ability of the SureStrike™ training system is to be able to change the functionality and behavior of the laser cartridge according to your training needs.

By using interchangeable action caps, the user can enhance his training by choosing between dry fire, boresight, long or short laser pulse. Choose between different gun platforms: using his own gun with firing pin activated caps, or recoil enabled training pistol with vibration or piston activated caps or using a light activated cap with the SureStrikeMAG™.

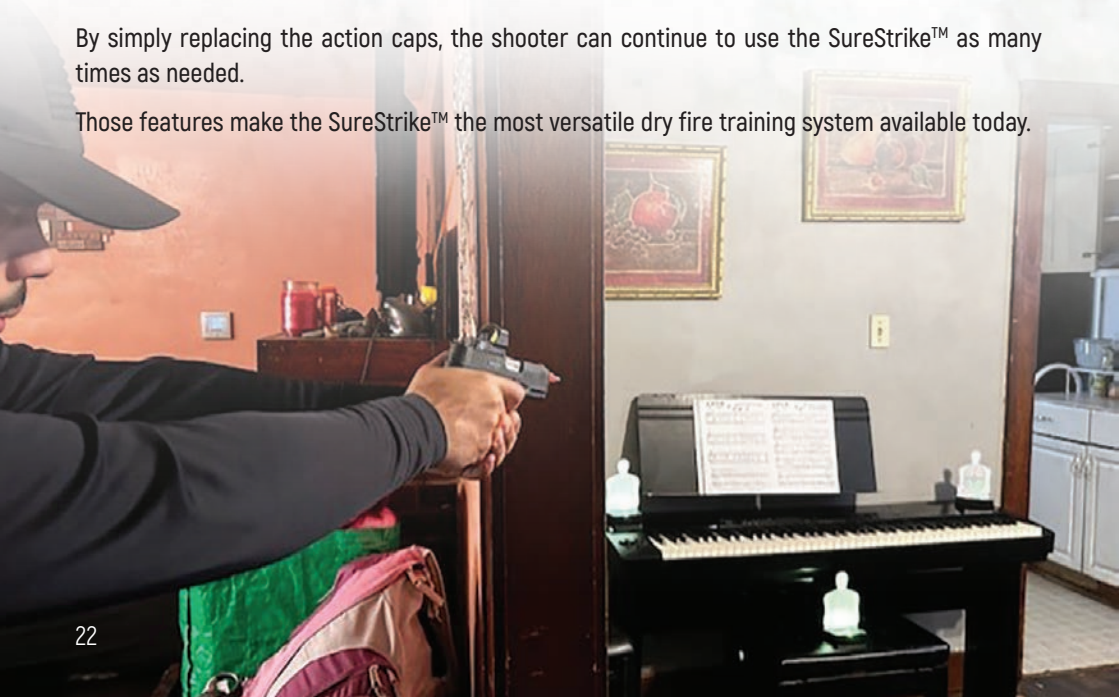

By changing the action caps the user can also change different calibers from 9mm to 38SP or 223.

The SureStrike™ action cap also performs as a snap cap, keeping the firing mechanism safe from damage while dry firing.

We guarantee all of our action caps for at least 5,000 shots, although many shooters have reported thousands of extra shots from their SureStrike™ units.

By simply replacing the action caps, the shooter can continue to use the SureStrike™ as many times as needed.

Those features make the SureStrike™ the most versatile dry fire training system available today.

DRY FIRE 9MM ACTION CAP

SKU: 9MTA

Emits a short pulse with every shot that will activate all Laser Ammo electronic targets and simulators.

- 9mm Dry Fire Action Cap

DIGITAL BORESIGHT ACTION CAP

SKU: 9MDB | 223DB | 38DB

A digitally controlled user-friendly bore sighting tool. The only laser that is activated on/off by pulling the trigger.

- 9mm Boresight Cap
- Available in 223 for AR15 and 38SPC

MULTIMODE ACTION CAP

SKU: 9MTA | DB

The Multimode Action Cap can be used for dry fire training or as a digital boresight action cap. Save money and use one cap for both modes.

- Multimode Cap

.223 FOR AR15

SKU: 223TA | 223LCADK

- 223 for AR15 Cap
- Available as adapter kit with barrel adapter

PST ACTION CAP

SKU: 9MPSC

PST caps to be used with recoil enabled pistols with the Gen2 REAL and FLASH system.

380 CAP

SKU: 380SBC

- 380 Cap

38 SPECIAL / .357

SKU: 38SBC

- 38SPC / .357 cap

VIBRATION CAP

SKU: 9MVC

- Vibration Action Cap

All SureStrike™ Action Caps include a battery pack and are guaranteed for a minimum of 5,000 shots or one year.

EVERYTHING YOU NEED TO CONTINUE TRAINING

Laser Ammo provides a variety of accessories to assist with all your training needs. From batteries to safety pipe extensions, to custom targets and everything in between, Laser Ammo has it all. Personalize your shooting experience to get the most out of your training.

REFLECTIVE TARGETS

SKU: 6MRT

Six reusable reflective targets based on the classic law enforcement design, and similar to competition targets.

- Size: 2.5"x2.5"
- Three different designs, two targets of each design

SURESTRIKE™ CARRYING CASE

SKU: BLKCC (black)

SKU: CAMCC (camouflage)

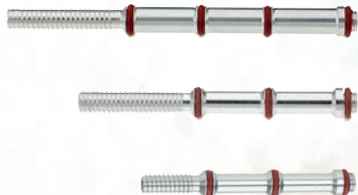

Protect your SureStrike™ and all of your accessories with this hard, nylon covered EVA shell, complete with fitted foam insert and heavy duty zipper.

LASER AMMO GUN MAT

SKU: Gun Mat

Multi-purpose mat, approximately 31.5" x 12" with a non-slip rubber backing. Ideal to use as a gun cleaning mat, protective counter mat for display cases at gun shops or oversized mousepad for your home or office.

SAFETY PIPE

SKU: 9MSP-L (Long)

SKU: 9MSP-S (Short)

SKU: 9MSP-C (Subcompact)

The UhrSecure™ Safety system, locks the SureStrike™ in the barrel to provide a visual and physical indicator that the gun is safe.

- Long Safety Pipe - for barrels from 3.5" - 4.8"
- Subcompact Safety Pipe - for barrels from 2.8" to 3.5"
- Short Safety Pipe - for barrels from 2.9"-4"

SAFETY NUT

SKU: 9MRSN

Self-centering and secures the safety pipe to the barrel ensuring safety and accuracy.

BATTERY PACK

SKU: 3BP

Each battery pack is composed of 3 shrink-wrapped LR726 batteries, with a total of 4.7V to activate the SureStrike™ Lasers. Alkaline, contains no mercury. Environmentally friendly.

SAFETY PIPE EXTENSION

SKU: 9MSP-E

For longer barrels, the extension pipe will extend the safety pipe an additional 1".

LAW ENFORCEMENT AND GOVERNMENT AGENCIES ARE OUR SPECIALTY!

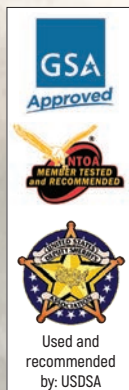

Laser Ammo offers laser-based firearms training packages tailored to the military, ROTC, security, corrections and law enforcement agencies around the world, specifically designed by experienced officers and operators that recognize a need for affordability, portability and quality for our defenders. With packages for individual officers, smaller agencies, larger metro and state agencies or military branches, we can address any of your firearm training needs.

Personal service with every order, outstanding customer service and unprecedented tech-support when you need it most.

What makes us the best?

- Train with any firearm platform or recoil enabled training gun
- Highly portable for use at recruiting events or multiple stations/locations
- Transition while engaging multiple targets
- Three-gun training allows for training with pistols, rifles and/or shotguns
- Backed by best-in-class customer service & warranty
- Custom orders available to use with already existing simulators and tactical vests.
- References available upon request.

"Training was spot on. I would prefer to see our department make this a mandatory training for our five year and under officers. Great refresher for seasoned officers."

Buchanan County Criminal Justice Foundation, Missouri training with Laser Ammo products

SURESTRIKE™ VIBRATION CARTRIDGE FOR GLOCK 17R AND 19R (“RED RESET GLOCK”)

Use the SureStrike™ Vibration cartridge for a safe and practical training with shooting simulators, tactical vests, force on force and more with the Glock reset trigger.

40MM GRENADE LAUNCHER

SKU: 40MMGLA-R

This 40mm adapter will house the 9mm SureStrike™ to allow Grenade Launchers training on the Smokeless Range® Simulator and the CQB. 40MM Grenade also available with Green Laser to be used for alignment of sights.

T10 AND X2 TASER

X2 SKU: SFTSRX2

T10 SKU: SFTSRT10

We Now offer both X2 and T10 models of the TASER. Allowing the officer to train on situational awareness with the Smokeless Range® simulator and to train with our CQB targets in different environments.

A WEARABLE SENSOR SYSTEM, TO BE USED ON THE OPERATOR'S EXISTING CLOTHING, LOAD BEARING VESTS, HATS, AND GEAR, FOR DEADLY FORCE ON FORCE SHOOTING AND DECISION-MAKING SIMULATION.

The Shot Body System allows professionals to problem-solve and fight as individuals or team members against live adversaries in realistic and dynamic encounters. It provides opportunity for the users to practice advanced gun handling skills, communication and tactical movement under stress and increases their chances of survival in a deadly encounter. Perfect for anyone who expects realistic training in their own environments.

Optional SureStrike™ cartridge is now offered with the Shot Body System, to allow the user to train force on force with the recoil AR platform, recoil enabled training pistol or use with carry pistol using the optional SureStrikeMAG™.

Each sensor includes 3 different settings, simulating the severity of the injuries on different body locations.

- Immediate lethal hit
- 3 hits before lethal (Officer/ Soldier to fight through injury)
- User requires immediate medical attention (Starts a progression timer leading to fatality). Gives role players 120 seconds to apply Tactical First Aid

Each sensor includes up to 5 different colors, allowing for multiple shooter identifications.

Additional Features:

- Pairs perfectly with Laser Ammo's recoil enabled firearms
- For indoor or outdoor use
- Easy to use and is ready in seconds
- Uses standard CR2032 Batteries (included)
- Perfect for team/group use
- Comes in carrying case for easy use and storage

TACTICAL ROOM CLEARING AND ACTIVE SHOOTER SIMULATED TRAINING, ANYTIME ANYWHERE!

A set of portable life-sized reactive targets, for close quarter battle and active shooter training. Designed for tactical entry and dynamic room clearing as well as active shooter simulation training with shoot/no-shoot scenarios and timing.

Our Gen2 CQB In a Box allowing the user to wirelessly program, via a Windows computer, the needed scenarios by changing the color of the targets (bad / good guys), decide on the number of shots to kill, etc.

CQB Features:

- 3 life-sized customizable targets
- 3 reactive hit zones on each target, focusing on head, torso and/or pelvic girdle shots.
- All 3 hit zones are wirelessly connected and can be self programmed, allowing users to build their own scenarios.
- Shot timer and hit /miss information available via Windows PC
- User can decide on target height and angle
- Highly portable and easy set up anywhere in minutes
- Wireless on / off controller
- Replaceable hit zone card, allows for larger or smaller reactive areas to focus on shot placement
- Uses standard AAA batteries (included)
- Great for individual or team training
- Highly portable - comes with a custom carrying case
- Works with all Laser Ammo training lasers

SKU: CQB-3

SKU: CQB-3-V1

We also offer the Gen 1 CQB - which will allow the user to get a shot timer and 6 different programs on the wireless controller, but with no option for self programming. No computer required.

gunSHOT BOX™

SIMULATE REAL GUNFIRE SOUNDS AND EXPLOSIONS.

INCLUDES PROPRIETARY SMOKELESS RANGE® WIRELESS CONNECTIVITY KIT.

The gunSHOT BOX™ introduces extreme realism in your department training, by creating the atmosphere and adrenaline which is often found in a combat situation. Electronically reproduce the sound of gunshots on demand, with real explosions and safe levels of sound percussion. Includes a proprietary Smokeless Range® dongle to allow wireless connection with the Smokeless Range® or use the included fob with the Laser Ammo CQB in a Box.

The included proprietary Smokeless Range® dongle allows automatic gun shot with every shot presented in the VST-P add on scenarios.

The gunShot Box™ advantages:

- Cutting-edge training tool designed to prepare first responders for active threats and shootings.
- Incredibly realistic gun shot sounds, flashes, and concussions that closely resemble real gunfire.
- Achieves ear-safe 125 dB shots without relying on blanks, speakers, or expendable materials.
- Includes two key fob remotes and special dongle with Smokeless Range® interface
- Easy to use.
- Automatic trigger within the Smokeless Range VST-P 2.0 or manually by the trainer using the fob at any time with the CQB in a box, or the Shot on Body System.
- Extremely portable and easy to move the units from room to room.
- No costly or dangerous blanks involved.
- Simulates a "muzzle flash" and "bang" without triggering the fire alarms.

Kit Includes:

- gunSHOT BOX™
- Smokeless Range® wireless dongle
- 2 Fobs
- Cable
- Accessories

FIREARMS TRAINERS

NRA / USCCA / Armed Women of America Instructor Program/ LE and state certified firearms trainers.

Many of our team members are firearms trainers themselves. We are proud to work with certified firearms instructors to sustain & expand the efforts of their education and training departments!

Endorsed by the NRA, USCCA and Armed Women of America, and used by many firearms trainers worldwide, it will help you, the trainer, to build confidence and correct skills with your students, with 100% safety.

Apply directly online for both, our Firearms Instructor Discount (for yourself) and our Firearms Instructor Affiliate program (giving your students a discount to save on dry fire training and you earn a commission as a thank you for your efforts). Scan link above.
